## **SAMSUNG GALAXY Music Duos GT-S6012 Pc Suite !!TOP!!**

Guys, I only found a solution to change the network mode to WCDMA in Samsung Galaxy Music Duos GT-S6012 after updating to Jelly Bean, go to Dial and press . NET. Then select WCDMA and then change it to GSM. And after that you can set it to WCDMA on any other phone. I already have these features for S6102, so enjoy. Thanks everyone for the help To set up your phone for WCDMA, follow these steps: 1. Turn off your phone. 2. Select Settings > Network > WCDMA. 3. Activate WCDMA. 4. Now set your phone to WCDMA. To do this, go to Settings > Network > WCDMA or Mobile > WCDMA and select WCDMA.
