About Zelda So, do you remember how Link opened the door with the Deku Tree? Well, do you remember how the Deku Tree opened the door? It was crazy....I kind of wanted to kiss that boy. Oh wait, I'm not gay,

but if I was, I would've loved to follow that boy to his room. But, I guess I didn't really want to, because he was just a boy. What exactly does that mean? I'm not sure if I want to know.

Not gay? Hmm... You know what...no. I'm not...but I do kind of know what it feels like to have someone want to just follow you around. Caries and dental treatment need in institutionalized mentally retarded children. The association between dental

caries and behavioral and mental development in mentally retarded children has not been studied comprehensively. A previous study from the main Danish psychiatric institution for mentally retarded children did not identify an association between the treatment need and the behavioral or mental development, although the study did not address the degree of treatment need. The present retrospective study comprised of 544 (474 boys and 70 girls)

children born in 1987-1988 with a mean age of 8 years at the time of the study. The treatment need was recorded according to criteria established in the DSM-IV TR for autism, attention deficit disorder and mental retardation. The sum of the dmft index was used to estimate the caries experience, and the decayed component of the index (dmfs) was used as a measurement of the caries level. The total prevalence of caries was 34%. The dmfs was 2.35

(median, 1), and it was higher among boys. The dmfs was correlated with the severity of mental retardation ($r = 0.29$, p
