He is not paying attention to the lecture that is going on. The lecture is of medicine and he just forgot about it when the Army Surgeon starts monologizing on drill, diet, and dressing... Then the Lecturer gets up from the table with the medical journal and starts to read it while the lecture keeps on talking. This whole time the Elric brothers are outside the Surgeon-Lecturer lecture hall chained up in the training facility. Finally they get a chance to talk, and they convince the Lecturer they are from another war, a Umerica war, and that they are here to end this one (no spoilers!). In a wizard's name, they blow the Surgeon Lecturer's cranium to smithereens! DirectX 11.0 Minimum: Windows 7/8/10 Mac OS X 10.9.5 This is a special case (I'll fix it later), but for now the SDL 2.0.4 installation doesn't work properly on Macs with Mountain Lion or earlier. I'm thinking about changing it to use the GTK2 version for the time being.
