It's the most sick and demented game ever made! Well, that's not all, the game is known for being a blow-job to the developers, an essential part of gameplay. They've managed to build one massive game with a stupid fucking story, that nobody wants to play. Well Medal Of Honor: Warfighter's story is pretty much the same as a tutorial, with some parts of the level being more intense, but the whole thing is a non-existing story, filled with bullshit in-game. So why bother playing it? At all. There are not even enough good games that have a story to get this in the first place. Well, see, I don't want to play the modern shooter with a shit story and mediocre gameplay, even if most shooters of today do, I'm not. So, I've found this little gem, and I think it deserves a mention, with the title of possibly being the best game ever made, even if it's only a demo, with no story whatsoever. What is it? It's a demo for Medal of Honor: Warfighter, because the game itself is a huge pain in the ass, something that has been proved multiple times since they've been a part of the Call Of Duty franchise. So they decided to develop another game, sort of like what they did with Call Of Duty, with a couple of changes, which are the lack of a "story" and that the game itself is not a CoD clone. So this demo, which I've seen before, is basically just a straight running CoD. The whole story is
