This poem was written in the summer of 1986 as a farewell to his old friend, Lawrence Gower, who had been murdered by Roy Fontaine. I borrowed a guitar and went into the garden to play a song for you The song was "Sunshine Special," a song I'd written for him but which, to Lawrence's ears, never quite seemed to go with the band. I played the song for him, and he was pleased. He said the song was a good song. Next morning, in the car park, I found a letter beside my hat, in a cardboard envelope. It was written in his hand. It said: "Thanks, John. Thanks for the song. Thanks for all the times you've been my friend. Here's a present for you: the guitar. I hope you don't mind me giving it to you. But it belongs to someone else now, so I'm sorry I can't give it to her. I don't suppose you know her name

There are a ton of great apps out there, but it's not always easy to find what you're looking for. In today's post, we're going to give you a quick guide for installing and using a word processing app for Android. What do you mean by a word processor? Think of a word processor as a complete suite of apps that make it easy to prepare any kind of text document for distribution. Unlike most word processors, these apps are usually meant for writing documents, like letters, resumes, reports, and more. Author: Android Firefox web browser for Android One of the most commonly used apps in my life is Gmail. It's fast, convenient, and I'm still on Android 2.3 Gingerbread as well. However, Gmail's Android application doesn't work on my phone. As of this post, I have Android 2.3 on my Galaxy S5, but the Gmail app doesn't even list it as an option. As such, I wanted to know how I could fix that. In my quest for a solution, I was recommended to use the desktop version of the mail service. I was a bit doubtful, as the desktop version was built with the same technology as the mobile version. However, that was just how I thought. So, I decided to give it a try.
