FIFA MANAGER 08. It will run on any computer in the world with the right settings. Bright Future tried to make transfers more realistic than in. Fortunately, this is not the only game in the series that managed to create a more or less believable team management system. As in other games in the series, in Manager you can customize the appearance of players, their physical performance. If desired, you can also change the tactics of the team - for example, move from positional defense to dominance on the field. Unfortunately, all managers have one and the same drawback that prevents them from building teams with high efficiency - this is the lack of real experience.
