Delivery fast native applications for Windows, Mac, web and mobile devices. With RAD Studio XE2 you can write an application in Delphi once and compile it for Windows. In addition, RAD Studio XE2 features a new Windows Design Wizard interface designed to make things easier for the novice. RAD Studio XE2 provides support for new platforms, including Windows 8, Windows Phone 8, and allows you to use the powerful features of RAD Studio without worrying about developing on Mac or Linux. As Linux grows in popularity, we are releasing RAD Studio XE3 and RAD Studio XE4, providing support for Linux and other platforms with the new RAD Studio XE3 development tool.
