choice for simple Flash menu designers who are looking for a basic menu maker. It is able to create Flash menus from a sitemap. You can change the background color, font, and add text. It does not have too many options and it is easy to use. It works well, is easy to use, and it's very intuitive. The one feature that it doesn't have is the ability to change the colors of your Flash menu or delete it, only add new ones. I think it is a great Flash menu maker. Flash Menu Labs Pro is a simple application that allows users to design Flash menus. You have the option to preview your Flash menu in a separate window. You can modify the fonts, colors, and text. It is easy to use and it works well. Flash Menu Labs Pro is a great Flash menu maker. Full formatted. Advanced. Its premium version is available at the official website. The pro version costs \$69.95. It is not cheap. But when it comes to Flash menu makers, it is a bit pricey. Flash Menu 2edc1e01e8
