Free Download Sonarworks Reference 4 Studio Edition Get it here for \$30 (or get two licenses at \$60). There is no direct sound or effects component in this edition. Sonarworks lists this for the Studio edition of the program, but its been confirmed to only be available for the Mobile edition. This is not true, you just need to take a few extra steps. I am guessing he is talking about the new Mobile edition. I downloaded version 4.3 of the Sonarworks Reference 4 Studio edition (the only version for the iPhone) from Sonarworks website. But unfortunately I cant install it because it says I already have a newer version on my Mac. I tried to go to the App Store to update it and it says: You do not have a compatible version of this app on your computer. Please download the latest version of the app from the App Store. . I cant even download the latest version of the app from the App Store. I have a Mac with a 60-in Internal Display. So with Sonarworks Reference 4 Studio edition 4.3, they only provide a Mac version.. I bought Sonarworks Reference 4 Studio Edition v4.3 by the developer www.sonarworks.com/music-production/sound-editions/reference-4-studio-edition. I cant install it

because it says I already have a newer version. . I have the same issue with the iPhone edition of the Sonarworks Reference 4 Studio edition. . I cant even download the latest version of the app from the App Store. Question: 1. How do I update the Sonarworks Reference 4 Studio edition? 2. I already have Sonarworks Reference 4 Studio edition v4.3 on my Mac. If I update to the latest version, will it work?. I bought Sonarworks Reference 4 Studio Edition v4.3 by the developer
