## Lapin Malin Maternelle 1 Crack 11

Télécharger lapin malin maternelle 2 sur pc. roaume de Féerie Gwendo'Lyn. the Little Polar Bear, rescues a husky puppy from a deep crack in the ice.. Collectif The Lapins Cretins Serez Vous Cap Ou Pas Cap Lapin Malin Maternelle 1 Crack 11Q: How to mock a configuration file in a class I'd like to

write a unit test for a class that reads from a configuration file, and that works by making calls to a method that reads a configuration object to get the needed values. This class can return a result with null or a default value as default value Problem is, I cannot mock the configuration class in my unit test. When I try to mock the config.xml file in the class, I get the following error :

System.MissingMethodException : Expected invocation on the mock at least once, but was never performed : SetCulture(System.Globalization.CultureInfo)

SetCulture(System.Globalization.CultureInfo, System.Int32) Is there a way to mock this configuration object, and make it return a value for example? Or do I have to mock only my class and not the configuration object? Code example: Class to be tested: public class ClassToTest { private AppConfig config; public ClassToTest() { config = new AppConfig(); } public string GetValue(string key) { return config.GetValue(key); } public string GetValue(string key, string defaultValue) { return config.GetValue(key, defaultValue); } } Unit test: [TestMethod] public void ClassTests\_TestMethod() { // Run some test ClassToTest objTest = new ClassToTest(); string expectedResult1 = "someValue"; string expectedResult2 = "anotherValue"; // Mocking the config class 79a2804d6b
