The teacher and I had to find the inverse of the matrix..1. Field of the Invention The present invention relates to a pipetting apparatus which is constructed to set a pipette into and take out it from a pipette chamber provided in a hand piece unit of the pipette apparatus. 2. Description of the Prior Art Heretofore, a hand piece unit of a pipette comprises a pipette which is set in the hand piece unit and a pipette chamber which is arranged in the hand piece unit for accommodating a pipette. When the pipette is set in the pipette chamber, the two base blocks of the pipette are engaged with the upper ends of the pipe members of the pipette chamber. The two base blocks of the pipette are brought into contact with the upper ends of the two pipe members of the pipette chamber by pushing the two base blocks in the direction of the pipette chamber. The pipette is pushed into the pipette chamber by screwing the cap portion into the pipette chamber. The pipette chamber of the hand piece unit is provided with a pair of upper- and lower-end bearing rings and each of the upper-end bearing rings is provided with a set of plural needle holders. When the above mentioned piston is pressed down to engage the two base blocks of the pipette with the upper ends 79a2804d6b
