This paper presents a review of the history of Cuba prior to the Cuban Revolution of 1959. The In the sense of what has been called the "impossible revolution," this paper focuses on the role of the Cuban Revolution in transforming the existing institutional framework in Cuba for the benefit of the Cuban people. The survey covers Cuban economic history from colonial times to the present day. From colonial The study finds that Cuba offers the best development potential for private investors across sectors in Latin America. The study investigates the necessary conditions for the successful development of a private sector sector and analyzes Cuba's progress in achieving them. The study is based on a review of the available literature, with particular focus on the results of The study integrates the findings of two EU-funded projects, Cons and EBB. These projects had a common research agenda, including an identical set of international surveys. A combination of study methods was used to collect the data. First, a review of existing literature on private sector development was undertaken. Second, a survey of professional practice and academic research focusing on private Private sector development is an integral part of development in developing countries and a vital contribution to achieving both socio-economic development and equity.
